

Alejandro Garcia

garciaa_3@carolinau.edu | +1(336) 898-1767 | Winston-Salem, NC | github.com/aleeeg8002

PROFESSIONAL SUMMARY

Sophomore Computer Science student and aspiring software engineer with a strong foundation in object-oriented programming and responsive web design. Proficient in building interactive front-end layouts and functional applications utilizing Python, C++, JavaScript, HTML5, and CSS. Experienced in delivering hands-on technical support and applying analytical problem-solving to optimize system performance. Actively expanding expertise in cloud infrastructure (AWS) and machine learning to develop reliable, user-centric technological solutions.

EDUCATION

Carolina University, NC

Bachelor of Science in Computer Science | GPA: 3.95

Expected Graduation: May 2029

- **Leadership:**
Computer Science Club — President (2026 – Present),
Campus Life — Resident Assistant (2026 - Present)

TECHNICAL SKILLS

- **Languages:** Python, C++, JavaScript, HTML5, CSS
- **Front-End:** FLTK, Tailwind CSS, Bootstrap
- **Cloud & Tools:** AWS (Cloud Foundations), Google Workspace, Freshdesk
- **Bilingual:** Native Spanish, Fluent English

EXPERIENCE & IMPACTFUL PROJECTS

Personal UX Portfolio | Summer 2026

HTML5, CSS3, JavaScript, Github | <https://aleeeg8002.github.io/AlejandroGarcia-portfolio/>

- Architected a zero-dependency, responsive web application deployed via GitHub, leveraging custom CSS flexbox and media queries to guarantee flawless cross-device compatibility without external UI libraries.
- Engineered real-time client-side rendering logic utilizing vanilla JavaScript, executing dynamic DOM manipulations to instantly process and display interactive user inputs.

Inventory Systems | Spring 2026

C++, FLTK GUI Library, OOP

- Engineered a secure C++ supermarket inventory system with a dynamic FLTK GUI, leveraging encapsulated class inheritance for authentication and secure pointer traversals to manage real-time state changes.

ADDITIONAL EXPERIENCE

IT Technician | 2026 – Present

Carolina University, NC

- Delivered Tier 1 technical support via Freshdesk Tickets, 8x8 calls, and Walk-In service for 200+ users, triaging and resolving weekly software, hardware, and network tickets to maximize system uptime.
- Managed an access control migration for the main campus building, measured by the successful deployment of secure NFC authentication for 40+ faculty members, by reprogramming 17 Sifely Smart Locks to phase out legacy biometric scanners.
- Restored critical Wi-Fi and ethernet connectivity for 60+ residents by diagnosing a switch-level network loop and migrating port configurations to a new VLAN.

CERTIFICATIONS & COURSES

- **AWS Academy Cloud Foundations** — Amazon Web Services | *Completed 2026*
 - **Machine Learning Specialization** — Andrew Ng / DeepLearning.AI | *In Progress – Course 2 of 3 (2026)*
 - **IBM Full-Stack Developer** — IBM | *In Progress - Course 4 of 15 (2026)*
-
